Ingham Community Health Centers offer a range of services from women’s healthcare, primary health care, pediatric health care, behavioral health care, school-based/linked health care and dental care. Health care services are provided without regard to the patient’s insurance status or ability to pay.

Ingham Community Health Centers ensures that all patients are able to access health care services without regard for an individual’s race, color, citizenship, religion, sex, height, weight, veteran status, national origin, age, familial status, marital status, limited English proficiency, disability, sexual orientation, gender identity and/or expression, or ability to pay for services.

We accept all insurances and also operate on a sliding fee scale. Medicaid enrollment is available onsite.

### Who Qualifies
Ingham Community Health Centers is dedicated to providing affordable, high quality, and comprehensive primary care to Ingham County residents regardless of their insurance status or ability to pay.

### Who We Are
Our staff is made up of Doctors, Nurse Practitioners, Physician Assistants, Social Workers, Nurses, Medical Assistants, Nurse Care Managers, and a Health Educator. We are a licensed and experienced team who is committed to providing affordable, high quality, and comprehensive primary and behavioral health care to Ingham County residents.

### Primary Health Care
Licensed doctors and providers at Child and Adolescent Health Centers offer primary health care services, including:
- Annual/Sports/School/Work physicals and Well Child exams
- Treatment for minor illness and injuries
- Vision/Hearing screenings and follow-up
- Chronic disease management (Asthma, diabetes, obesity, etc.)
- Immunizations
- Basic lab services and tests
- Counseling and behavioral health services
- Health education
- Referral to community services
- Referrals for specialty services

### Confidential Services
Child and Adolescent Health Centers offer the following confidential services to mature minors:
- Pregnancy testing
- Sexually transmitted infection (STI) and HIV screenings, treatment and counseling
- Substance abuse education, counseling and referrals
- Crisis intervention and emergency care
- Mental health assessment, counseling and referrals
- Physical/sexual abuse counseling and referrals

### Behavioral Health
Licensed Social Workers offer screening and assessment for a variety of behavioral health issues facing adolescents today. Comprehensive screening and assessments are available to individual patients at each of our Health Centers, and to members of the community.

### Health Education & Outreach
Child and Adolescent Health Centers host evidence-based workshops for students and community partners around STI’s/contraception, nutrition, bullying, dating violence, depression & suicide, and homeless prevention. All workshops are at no-cost and available to the community.

### Family Planning
Family Planning (birth control and contraceptive) services are available only at Willow Health Center. Child and Adolescent Health Centers also provide services for the whole family, including free Medicaid Enrollment Assistance and appointment scheduling for medical or dental services for all ages through Ingham Community Health Centers.
